Oh no, and so the saga continues. EISD was in my computer for an hour today until it finally said the signature was valid. Let me know if this one works!

I hadn't checked before I signed, but when I go back to the version you emailed me to sign, it says at least one signature has problems. The same thing had been happening with Nina where there were no problems appearing on her end but when the recipient opened it, the error message was there. Maybe just try again and fingers crossed?!

Hello Chris,

I think it may be Cassie's signature since I just had mine fixed this morning. Cassie, if you're able to resign with a validated signature, please do and send it forward to Chris. Otherwise we'll just have to proceed with the unvalidated signature.

P.S. I'm out of the office until 5pm (at the badging office) but will log back in afterwards.

Hi Wiebke,

The PDF indicates at least one signature (before is signed) has problems! Not sure which one.

Thanks,
Chris
